MEMORYCHARM.COM

Bound to hold what matters.

MEMORY CHARM

A small object that holds a moment.

TAP YOUR PHONE TO BEGIN.

BINDING

A guide will open. You will be asked to shape the memory:

— Create a Keeper account

— Accept the Memory Charm license

— Choose a memory — video, photo, or audio

— Give it a title and a short description

— Set how it may be shared

— Seal the charm

For the first fourteen days,
the memory stays soft — editable, still taking shape.

After that, it settles into its final form —
a story, ready to be told.

Thank you.

A small object that holds a moment.

NEED HELP?

A single tap is all it takes. No app to install. No pairing. Just tap, and the

SCAN FOR NFC GUIDE

AWAKENING

First, confirm NFC is on.
Open Settings, search for *NFC*, and switch it on if it is not already.

Then find where it wakes.
On *iPhone*, that place lives along the top center edge.
On *Android*, it should be in the upper half of the back — usually near the camera.

Hold the charm there. Move slowly.
When you find the right place, your phone will know.

One thing to be aware of: a magnetic phone case — the kind that lets your phone cling to a car mount without a bracket — will silence the charm. The magnets interfere with the NFC reader. Simply remove the case, and the magic returns.
